ASEPTCONN AG

Engineering Service - Custom-Made

About Us

Aseptconn is a leading supplier of components, products, software, and systems for sterile liquid technology, primarily in the pharmaceutical and biopharmaceutical sectors. With innovative products and expert advice, Aseptconn helps sustainably improve its customers' processes. Its extensive portfolio and diverse services make it the preferred supplier for many renowned international pharmaceutical companies.

Service Description

We offer a custom manufacturing service designed to meet the most demanding and specific projects. Thanks to our flexible and responsive work methods, we are able to address needs that standard market solutions cannot fulfill. Our engineering service supports you at every step, defining a solution perfectly tailored to your application and the technical constraints it must comply with. With in-depth expertise in the pharmaceutical field and a strong capacity for listening, we advise and guide you toward the optimal solution for your specific needs.

Engineering Service - Custom-Made

Our Offer

We provide a comprehensive service including design, calculation, engineering, construction, and manufacturing of custom-made parts, fully tailored to meet YOUR quality requirements.

Design and Compliance with Standards:
Our projects are developed in accordance with the most stringent international standards, such as ISO, DIN, and ASME BPE.

Inspections and Certifications Included Upon Delivery:
We ensure the compliance and traceability of our work by providing:

- A detailed welding dossier.
- Surface roughness tests performed by our qualified personnel, complemented by endoscopic inspections.
- A 2.2 certificate confirming the work carried out.
- Material certificates validated by mass spectrometry.

Adaptation to Your Specific Requirements:

- Polishing or electro-polishing of surfaces in contact with the products.
- Guarantee of surface finishes and roughness, up to a mirror polish with a Ra of 0.8 µm.

With our expertise and meticulousness, we deliver personalized solutions perfectly aligned with your needs and the constraints of your industry.

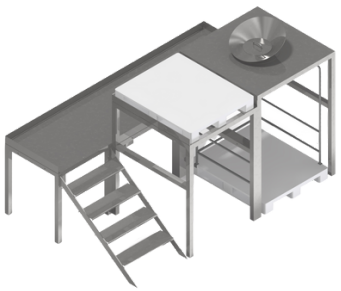
What We Have Already Achieved

Special Trolleys

Stainless Steel Tanks

Distributor Systems

Mixer



Filling Station
