ASEPTCONN AG

Tri-Clamp Fittings and Connections

About Us

Aseptconn is a leading supplier of components, products, software, and systems for sterile liquid technology, primarily in the pharmaceutical and biopharmaceutical sectors. With innovative products and expert advice, Aseptconn helps sustainably improve its customers' processes. Its extensive portfolio and diverse services make it the preferred supplier for many renowned international pharmaceutical companies.

Service Description

Tri-Clamp fittings and quick connections are specifically designed for environments requiring high hygiene standards. We offer a wide range of Tri-Clamp fittings and accessories, easy to use and tailored to your specific needs. Whether you work according to ISO, DIN, or ASME-BPE standards, our solutions meet your requirements.
To further simplify your work, our mobile application allows you to quickly determine the applicable standard for your installation. Available on the Apple Store and Android, it is your ideal tool for efficient and precise management.

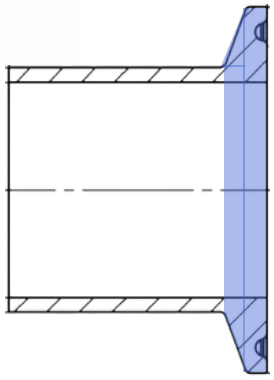
Tri-Clamp Fittings and Connections

What is Tri-Clamp



Blue Section:

Tri-Clamp is a standard manufactured based on DIN 32676. This standard covers the following dimensional norms:

- DIN 11850 --> Metric version
- ISO 1127 / ISO 2037 / ISO 2852
- ASME BPE / BS 4825 --> Imperial version

Tri-Clamp Connections

We offer a wide selection of components designed to meet your specific needs:

- Clamps: Available in stainless steel or plastic, depending on your requirements.
- Ferrules: A reliable solution for robust and hygienic connections.
- Caps: A perfect finishing touch for your installations.

Tri-Clamp Fittings

Our range includes several stainless steel fittings:

- Fitting with female threading
- Fitting with male threading
- Concentric reducing Tri-Clamp ferrule
- 45° Tri-Clamp elbow
- 90° Tri-Clamp elbow

Custom Tri-Clamp Fittings

Our engineering service designs and manufactures your Tri-Clamp fitting to perfectly match your needs, quality requirements, and material preferences (PEEK, PTFE, PVDF, Hastelloy, 904L, etc.).
We are committed to providing customized solutions that comply with the most demanding standards, ensuring performance and durability.
