Single Use Products & Systems

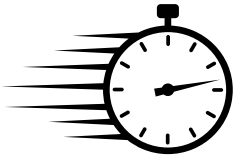
The advantages of single use:

Our single-use products and systems offer a practical and cost-effective solution for optimizing your processes. Find out more about the key benefits:

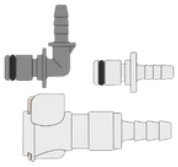
Reduction of contamination risks:
Thanks to the sterile and previously tested single-use products, any concerns about cross-contamination are eliminated.



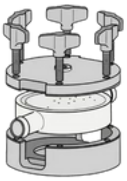
Time-saving and efficient:
Simplify your processes by eliminating cleaning and sterilization steps to reduce downtime.

Cost management:
Reduce energy, water and chemical costs associated with repeated sterilization of reusable equipment

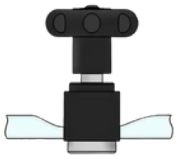
Our product range



Quick Coupling

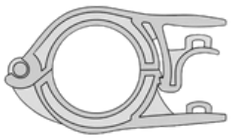


Back pressure Regulators

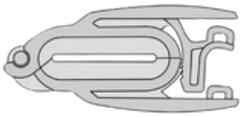


Pinch valves

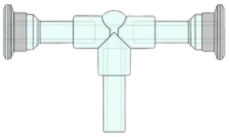
Inliner valves



Plastic closure clamps



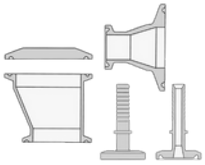
Pinch clamps



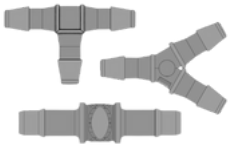
Molded Silicone Systems

Single Use Assemblies

Filling Needles



Tri-Clamp Fittings



Fittings

Bottle Tops
