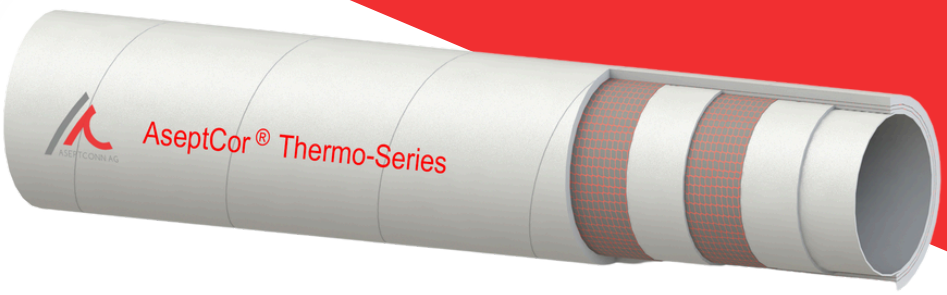
ASEPTCONN AG

AseptCor® Thermo Heatable Silicone Flexible Hose



About us

Aseptconn is a leading supplier of components, products, software, and systems for sterile liquid technology, primarily in the pharmaceutical and biopharmaceutical sectors. With innovative products and expert advice, Aseptconn helps sustainably improve its customers' processes. Its extensive portfolio and diverse services make it the preferred supplier for many renowned international pharmaceutical companies.

Product Description

We offer a new range of flexible hoses specially designed for the transfer of sensitive fluids. Intended for the pharmaceutical and biopharmaceutical industries, these flexible hoses can maintain the temperature of heat-sensitive fluids throughout the transfer process. Manufactured according to your specific requirements, they ensure optimal performance and maximum safety for your applications.

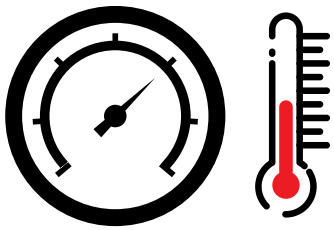
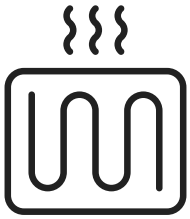
AseptCor® Thermo Serie

What are they used for?



Maintaining the heat:
The transport of heat-sensitive liquids that require a constant temperature (±10°C).

Preheating:
This hose can also be used for product preheating processes.



Main features:

Construction

Inner hose made of silicone, suitable for the food and pharmaceutical industries.

Reinforcement

Polyester fabric layers for optimum durability.

Outer shell

Transparent, tasteless and odorless silicone that ensures a smooth, shiny surface.

Ø Inner [mm]	Recommended working pressure at 20°C [bar]	Minimum burst pressure at 20°C [bar]	Vacuum resistance [bar]
19	10	30	-0.6
25	10	30	-0.6
32	10	30	-0.6
38	10	30	-0.6
50	10	30	-0.6
65	10	30	-0.6
