Pipetite® for pipe penetration sealing

Key Features

High-quality materials:
Made from flexible, durable and resistant silicone.

Adaptability:
Modular design that easily adapts to various pipe diameters

Easy installation:
No specific tools required, reducing installation time and costs.

Hygiene standards:
Compliant with international standards for demanding hygienic environments

Advantages

Simplified maintenance:
·Facilitates cleaning and reduces the risk of cross-contamination.

Optimal sealing:
Prevents water, dust, or contaminants from entering critical areas.

Cost reduction:
Less downtime and maintenance thanks to easy installation and care.

Durability:
Withstands difficult conditions and ensures a longer service life.

Pipetite® for pipe penetration sealing

Product Range

Pipetite® Standard:
For general installations, offering a reliable sealing solution for most applications.

Pipetite® ReBoot:
Ideal for installations where pipes need to be easily removed or reinstalled. Perfect for already existing piping systems.

Pipetite® Grommet
For cable and pipe penetrations with smaller diameters. Also suitable for panel entries.

Pipetite® Flat
Sealing solution for installations with limited space, where a flat surface is required.

Pipetite® pipe in pipe
Allows the connection of two pipes with different dimensions.
