## Machining, mechanical manufacturing and electroerosion

We are pleased to present our comprehensive range of services including machining, mechanical manufacturing and electroerosion services for all non-ferrous materials. These include, for example, stainless steel, titanium, aluminum, copper, tin, bronze and plastics.

At Aseptconn, we always strive to provide high quality and customized solutions to meet your manufacturing needs accurately and efficiently.

## Our service

1. Precision Machining: Our team of machining experts is equipped with the latest technologies to produce complex parts with exceptional precision. Whether you need prototypes or parts for mass production, we are happy to assist you with your project.
2. Mechanical fabrications: Entrust us with the execution of your projects in the field of mechanical orders and machining. Our flexible production capacities allow us to meet a wide range of requirements, from turning to drilling, grinding and milling.
3. Electroerosion: Our expertise in EDM services guarantees you precise cuts and high-quality surfaces. With our CNC machines, we are able to produce complex parts from various materials with dimensional accuracy.

## Why should you choose us?

- **Highest Quality:** We are committed to providing the highest quality products at every stage of production, using premium materials and advanced machining techniques.
- **Flexibility and responsiveness:** Our company is very flexible to respond to the changing and rapid needs of our customers. We are responsive and able to meet even tight deadlines.
- **Team of experts:** Our team consists of experienced and highly qualified professionals in the fields of mechanical engineering and mechanics. Their great expertise offers you the guarantee that the results will meet your expectations.
- **Confidentiality and security:** The confidentiality of your projects is of utmost importance to us. Your information will be treated with the utmost discretion and security.
- **Customized solutions:** Every project is unique, which is why we offer customized solutions that are precisely adapted to your specific requirements.

## Contact us today

Contact our dedicated team to discuss your machining, mechanical subcontracting or EDM needs. We will advise you on the best solutions for your project and will be happy to provide you with a customized quote.
