ASEPTCONN AG

Machining, mechanical manufacturing and electroerosion

About us

Aseptconn is a leading supplier of components, products, software, and systems for sterile liquid technology, primarily in the pharmaceutical and biopharmaceutical sectors. With innovative products and expert advice, Aseptconn helps to sustainably improve its customers' processes. Its extensive portfolio and diverse services make it the preferred supplier for many renowned international pharmaceutical companies.

Service Description:

We offer our expertise in machining, mechanical subcontracting, and electro-erosion. Discover our comprehensive range of services dedicated to machining and processing non-ferrous materials. We work with precision on materials such as stainless steel, titanium, aluminum, copper, tin, bronze, and plastics.

Machining, mechanical manufacturing and electroerosion

Our service

- Precision Machining: Our team of machining experts is equipped with the latest technologies to produce complex parts with exceptional precision. Whether you need prototypes or parts for mass production, we are happy to assist you with your project.
- Mechanical fabrications: Entrust us with the execution of your projects in the field of mechanical orders and machining. Our flexible production capacities allow us to meet a wide range of requirements, from turning to drilling, grinding and milling.
- Electroerosion; Our expertise in EDM services guarantees you precise cuts and high-quality surfaces. With our CNC machines, we are able to produce complex parts from various materials with dimensional accuracy.

Why should you choose us?

- Highest Quality: We are committed to providing the highest quality products at every stage of production, using premium materials and advanced machining techniques.
- Flexibility and responsiveness: Our company is very flexible to respond to the changing and rapid needs of our customers. We are responsive and able to meet even tight deadlines.
- Team of experts: Our team consists of experienced and highly qualified professionals in the fields of mechanical engineering and mechanics. Their great expertise offers you the guarantee that the results will meet your expectations.
- Confidentiality and security: The confidentiality of your projects is of utmost importance to us. Your information will be treated with the utmost discretion and security.
- Customized solutions: Every project is unique, which is why we offer customized solutions that are precisely adapted to your specific requirements.
